EDUCATION

Graduation

Manav Rachna University

09/2020 - Current Semester | CGPA- 7.97

Senior Secondary School (12th Standard)

Daisy Dales Sr. Sec. School

2020 | 79.5%

Secondary School (10th Standard)

Daisy Dales Sr. Sec. School

2018 | 85.8%

PROJECTS

NFTropolis (01/2022 - 03/2022)

- This project is built on the Ethereum blockchain platform using **Solidity** programming language and **MetaMask** digital wallet to ensure smooth transactions. The user interface is designed with **React**, a well-known JavaScript framework for creating interactive interfaces.
- The platform permits users to engage in a variety of activities, such as **procuring, vending, or amassing** non-fungible tokens (NFTs).

SolTunes (10/2022 - 12/2022)

- This project involves developing a decentralized application (dApp) using the **Anchor** framework for the **Solana** network.
- The dApp is designed to imitate the features of **Spotify**, a renowned music streaming platform, in a web3 clone version.
- One remarkable aspect of the project is its ability to incorporate songs from **cloud-based links**, providing access to a wider range of available tracks.

Interior Oasis (05/2021 - 07/2021)

- The project is a web application built on **React** and **Material UI** design components.
- Its features include filtering items, adding items to a shopping cart, and providing detailed product pages.
- It also has a secure user authentication system for creating user accounts and logging in.

SKILLS

Programming Languages: Java, C, C++

Development: React.js, Node.js, Express.js, Tailwind CSS, Redux

Databases: MySQL, Firebase

Development Tools: VS Code, MySQL, Eclipse

Others: Data Structure, Algorithm, Agile, OOPs

AWARDS/ACHIEVEMENTS

- 3 Star** coder on **LeetCode**.
- Solved **700+** Questions on **LeetCode**.
- Second Position in **she-a-thon** event organized by **IEEE, MRU**.
- Third Position in **Coding Fiesta** competition organized by **IEEE** and Coding Club, MRU.
- In **Top 2** coders from MRU on **GFG** Platform.

CERTIFICATIONS/TRAINING

- LinkedIn
Learning Full-Stack Javascript Development: MongoDB, Node, and React
4 hours (01/2023)
- LinkedIn
MERN Essential Training
2 hours (01/2023)
- LinkedIn
React: Authentication Training
6 hours (11/2022)
- Microsoft & DSCI
Cyber Shikshaa Training by Quick Heal Academy
2 weeks (09/2021)
